23RD JULY 2015 1944

SS: Just a few notes in second person to record what I have been hearing lately.

Since I self-admitted into the Hornsby adult mental health facility, the reasons as explained to the mental health workers and doctors, I continue to hear an evolving story involving bikies and me.

Apparently JD and RT/GJ have been setting me up as a user and/or producer of child pornography. I am told that they think I have a Netflix account, and that I have posted child pornography onto Netflix, and possibly some other locations.

I am not interested in providing initials because they are already in my emails and texts to GJ, HB-M, GK and PBD.

The other night, Sunday 19th, I had to put a surveillance camera on my door to stop these people coming in. I went to the police on 9th June 2015 to report that I thought that people had been accessing my spare keys and entering my unit, and tampering with my computer. I also called the police a few days later to report a similar situation with my car. Unfortunately I forgot to get the name of the male and female police that attended.

When I admitted myself to the PEC unit three times a few weeks ago, on the second occasion I asked the police to give me a lift to the emergency department because I was told not to use an ambulance.

Anyway, over the past few weeks, I believe that someone has been accessing my bank account. Small amounts of money have been 'going astray' intermittently for several months. I told my social worker about it. On each occasion I went to the bank, but I was not able to make progress with them. For example, the bank claimed they gave me a \$12.57 'overdraft' a week and a half ago. This was their explanation for why when I went to withdraw \$150 that had been deposited, I could only get \$137.50. Obviously I could not withdraw this amount. I withdrew \$130 (I think) and went to the bank the following day. The bank claimed that the reason there was not the deposited amount of \$150 available for withdrawal was because of a timing issue, that resulted in the bank allowing a \$12.57 overdraft (the exact amount I spent at Coles and have the receipt for) when I went to Coles and spent \$12.57. So when I went to withdraw money after having had \$150 deposited, there was only \$137.50 available (they had reduced the deposited amount to the value of the overdraft).

This seems unlikely to me, as I am a discharged bankrupt. I still have all the receipts and bank statements, but these do not show the whole story.

Anyway, since I believe that they have used my keys to come into my unit and changed all my first person transcripts into second and third person, I can not be bothered keeping any notes anymore. I am writing this for their purposes, not my own.

Apparently I am to be a sacrifice of blood and pain to some ghost. Obviously ghosts don't exist. So what my hallucinations are on about I do not know.

MY VOICES CLAIM THEY ARE REAL PEOPLE

I wrote all this about 35 minutes ago, then it had disappeared. My voices claim they are all Freemasons. I have always wondered if this forum is run by the same associates, especially since my last post went missing in less than half an hour.

I have been keeping 1st person transcripts that show the *modi operandi* of my voices, and details some of the things they have said to me over the years. I am frequently a rush late at night posting information on Facebook etc to try and cover myself because my voices keep saying they are going to murder me because of what I know about them.

They have always claimed to be real people. As I said, Freemasons. Currently they say that two Senior Detectives in Perth WA (SD Cream & SD Wilson) are trying to 'stitch me up' for a crime that I am not responsible for. They are corrupt and their investigation is tainted by corrupt approach to the established procedures. They have been changing the Incident Report to suit themselves and have been tampering with the evidence. They are investigating me because two of their Freemason brethren (JD and SS) (associates) have been submitting false and baseless claims that they have heard me "boasting" about having

committed a crime, when in fact I haven't done anything of the sort. Indeed I haven't even seen these two people for more than 15 years.

I have distributed the transcripts that incriminate them to several people, and the encryption certificates to some other people. I have also been making sporadic postings on Facebook and Twitter to establish my own alibies and to leave a trail of evidence if they should succeed in murdering me. I have to delete the Facebook postings after only a day or so, because they are difficult to believe and defamatory. I am hoping the court will issue a subpoena duces teca that will enable me to retrieve the postings from their backup server.

Anyway, I am bemused regarding what happened to my original post. I hope this one endures, or I will have to contact the administrator and change forums.

A COUPLE OF NOTES ABOUT THE INVESTIGATION

While these two WA Detectives have been doing the cold case, they have directed some 'guy' at Telstra to make 17 edits to the vision coming from the surveillance camera in the evidence room. They also started re-painting the evidence room in the second day of the efforts, so they could 'accidentally' get paint on the lens and cover up some more malpractice and corruption taking place during the activities. They have made more than 3 changes to the original Incident Report, thrown evidence (across) around in the evidence room, had CT with them when they started the investigation and he had no right to be there, and they have been working late at night and early in the morning so as not to come under scrutiny from the CO's WRT to investigation. They also failed to follow up the initial reports they received from the Crimestoppers website, because they were submitted by brethren Freemasons, so they avoided the normal phone call to make sure what they reported was the truth, and not just some vindictive allegations resulting from emotional disturbance by the 2 people who made the reports.

I am told by a little birdie that the WA police are going to charge with with 2 counts of manslaughter. They just telephoned me and tricked me into writing down a whole series of questions that I would base my defence on. Now they have my approach to a defence, and they have corruptly obstructed any chance I might have had of legitimately defending myself!!! What should I do??

A CLARIFICATION OF MY WORDING

It is 2210 hgours and I have been listeneing as JD submits more and more crimestoppers reports claiming that I threw bins on the road leading to the death of someone. The WA police have been following her lead, and acting in accord with protocal, monitoring all me online activity. Anyway, the point that is causing much consternation is that in my most recent post I stated that "I would not take responsibility" for this alleged incident with the bins. JD and the two SD's all feel that I shoulod have written "did not committ" instead of "not take responsibility for". I am happy with either wording. Having said this, there are very detai9led and specific reasons why I chose the poriginal wording that I did choose. And I will not be clarifying the reasoning unloess in a court of law. It is all very qwell for these Freemason bretheren to be discussing my efforts and postings, with their 'above the lsw' arrogance and expectations. But I do not approve of 'above the law' entitlements, expectations or attitude, whether stemming from Freemasonry or not. I will choose my wording with an anticpation of a court case, where I will reveal my intention, my meaning, and why I choose specific wording, in the context of these people who through

their telepathy, think that they have 'devine ' rights, are free from defamation, are are in a position to continue to criticise and comment, when they themselves undergo littloe to no scrutiny.

Here are some more quotes that I am hearing: (no one will identify themselves anymore, unlike the past 7 years where they just about boasted using their names):

"scott, you are going to die"

"Scott, you are going to die"

This is in contrast with the past 5 or so years where she (JD) always was saying "Scott,I want you dead by dawn"
I am still not sure if RT/GJ is going to allow me to study at HornsbY TAFE, or if he is going to corruptly prevent my applications being received.

I WOULD LIKE TO DRAW SPECIAL ATTENTION TO THE FACT THAT IN MORE THAN 7 YEARS, JD OR RT HAVE NEVER GONE TO BE EARLIER THAN ME, AND NEVER GOT OUT OF BED LATER THEN ME. Tonight everytime I go to bed, JD says some other lie that upsets and stresses me. How come these two people never go to sleep? And exactly why do they lie all the time. And especially, why have they been trying to force me into committing suicide since around July 1991, but in particular since February 1992. Why do they keep on insisting I committ suicide?

"there's no hope Scotty Stewart" said several time soon as I got to bed. It is 2337 and they just keep abusing me and hgarrassing me. Everytime I get into bed they start saying that I am going to be murdered again. I am too scared to put the details, but they started saying that phone calls are right now being made, and questions asked about thesae posts, because some people have believed JD's lies ("GRIFTING"). Apparently people from the west are making phone calls trying to find out to what extent all this information is true and reliable, and why I keep posting what I hear.

I can only see it as more in the decades long campaign to force me to committ suicide, becuase of the vast amount of money that JD has stoled from me over the last two and one half decades. ANd their activites and approaches to "running me ragged" and fucking up my sleep and my life have been consistent since Feb '92. AT that time, I was only allowed to have 3 to 4 hours sleep pernight. I had to get up and weed the garden before dawn, do other chores around the place, and not go to bed to sleep before about 11pm. This is consistent with what all other schizophrenics go throu as well. But why do my hallucinations have the names they use, and what are they actually attempting to do.

I'm going back to bed.

Today at 12:12 AM

This time (and it is 2350) they started talking about the so called 'confession' that was on my computer. JD has been renting houses and units next doorto where I live since the very start of 1992. She didn;t mention that she had got my spare house keys duplicated until April 2013, when she also let me know that she got duplicate copies of my spare car key.

SO I know as I have stated (telepathically like the rest) that I did not write that document. Thhta is why they kept me up and wouldn't let me sleep back in 2013. They knew that if they deprived me of sleep, I would eventually fall to sleep, and they could come in and change any or all of my notes. On several occaisions when they forced me to go to the shops, I returned and discovered that they had been changing documents. The same thing happened when the Bandido's moved in either side of my unit, which is when JD and RT told them that they were from the FBI and they were trailing me because I was a pedophile.

They made them wear headphones to be able to hear my thoughts (thought broadcasting), and then came and made duplicates of most or all of the notes that I had kept. Something that I had offered them to do anyway, if they would just come and knock on the door and ask.

Now there is an absolute atmosphere of silence and palpable misery. Without hearing anything or asking, I bet they are about to tell me that I am going to be murdered again. It boggles me why anyone would have me believe they are sad. Because every single 'person' who is implied to be listening or telepathic, has had two and one half decades to send me a note or a postcard to tell me that any of what I hear is true, and that the Freemasons are telepathic Satanic Occult worshippers, pedophiles, infanticides etc just as they are reported to be on the WWW.

MHW (said she was JD) "Scott, the GJ are of the opinion, that you are a cunt (full stop). They are mobilising themselves to come and get you in the morning, at about 8.30am"

This is the same as approximately 4 weeks ago, when the Hills Chapter of the Bandidos was coming to murder me at 7.30am. I was going to get up before that to be respectful, but JD & RT etc once again would not let me go to sleep, so I was up and awake anyway.

MHW "Scott, you are about to be arrested by the WA police, for double manslaughter."
SS "I sent them a report on Crimestoppers a few hours ago"

SO I will return to bed. I will try to avoid getting up to make more notes. I will try to get to sleep. And I will get up at 8.15am to be ready for whoever is coming.
